

## After The Snow

Modern English

The rhythm of the rain gives an off beat on the window pane  
Like an angel crying from the sky  
I can see its beauty after the snow  
I can see its beauty after the snow

The temperature's dropping rapidly  
Normal service will shortly be resumed  
I can see its beauty after the snow  
I can see its beauty after the snow  
After the snow

I stood and watched the dark sky rise  
With glaring sunlight in my eyes  
I thought of all the times gone by  
And laughed aloud at the crimson sky  
After the snow  
After the snow  
After the snow  
After the snow

After the snow there's something born  
After the snow there's something born  
After the snow there's something born  
After the snow there's something born  
After the snow  
After the snow

The rhythm of the rain gives an offbeat on the window pane  
Like an angel crying from the sky  
I can see its beauty after the snow  
I can see its beauty
