Breaking Away

Modern English

Long days and stormy weather
The same old road today
There's only one way up or down
Be free was all they said to me
And now I'm breathing in again
Breaking away run run run away

Just here and gone another day Nothing much to say There's only one way in or out Be free was all they said to me And now I'm breathing in again

Here it comes again for all to see
Make way for old hypocrisy
There's only way right or wrong
Be free was how you're meant to be
And now I'm breathing again

You know it You know it You know it

Breaking away (run run run away)
