

The Greatest Show

Modern English

New York to Moscow,
Peking to London
From the land into the sea
Cairo, Berlin
Everywhere so interesting
I don't want to let it go

This life we know
It's the world's new greatest show
When the heart is beating
I don't want to let it go [repeat]

Paris to Stockholm
Rome to Tokyo
Where the mountains reach the sky
Highlands, Skye where the rivers collide
The country seems to glide right by

The deserts and grass
The ruins of the past
Surrounded by the sea
Welcome to the world's great wonders
I don't want to let it go

Look there!

This life we know
It's the world's new greatest show
When the heart is beating
I don't want to let it go [repeat]

Come one and all
Welcome to the world's new greatest show

This life we know
It's the world's new greatest show
When the heart is beating
I don't want to let it go [repeat]

Come one and all
Welcome to the world's new greatest show
(This life we know
It's the world's new greatest show
When the heart is beating
I don't want to let it go) [repeat to fade]
