

## The Planet

Modern English

The Sun is still rising  
The world starts to glow  
My mind is just hoping  
The thoughts start to flow

The Planet inside me  
Has everyone and everything  
It keeps me warm and helps me see  
That's the planet inside me

The eye is the vision  
The heart's in control  
The mind is the answer

Get up and let go

The Planet inside me  
Has everyone and everything  
It keeps me warm and helps me see  
That's the planet inside me

The Planet inside me  
Has everyone and everything  
It keeps me warm and helps me see  
That's the planet inside me [x4 to fade]
