

Up Here In The Brain

Modern English

Up here in the brain
Up here in the starry heights
It's softening time again
Click, click, on off, the lights

Up here in the brain
Up here at the top of the stairs
Shifting blame again
So completely unaware

Up here in the brain
Up here in the starry heights
A bitter still complain
It's not quite right

Up here in the brain
Up here where the road must end
It's closing time again
Closing time again

Up here in the brain
Up here in the starry heights
A bitter still complain
It's not quite right

Up here in the brain
Up here in the starry heights
Up here in the brain
A bitter still complain
It's not quite right

Up here in the brain
Up here in the brain
