

## I'm Still Here

Modest Mouse

So you went to make a call well they musta hung up  
Cause I see you're talking to him right there  
Oh, I knew I was a little messed up  
But I guess it's much worse than I feared

Cause I'm still here  
I'm still here  
I am still here

Your friends are all rollin' their eyes and you're laughing  
Well yeah I know what's what  
I love good jokes just like anybody  
But I don't like being the butt

Cause I'm right here  
I'm still here  
I am still right here

Your eyes are darting around  
And you're looking right past me for something else that's near  
Well you must have powdered your nose just a little too much  
Cause I'm still here

I know that you told me you were a little bit drunk  
But I think it's much worse than you feared  
Well you're making me feel like a dog catcher  
But hell, you invited me here!

Why am I here?  
Why am I here?  
Why am I here?
