

Leave A Light On

Modest Mouse

People live in homes made of leaves pulled from bananas
Others houses are colorful made from wax crayons
My friends place is remote control, but she don't know where that is
Some things live in gopher holes somewhere in Texarkana

I know a guy, claims that he is from a very different planet
My friends house is nice but she will still take that for granted

We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon

My friends house if full of very very helpful nurses
Some days they have birthdays there and some days they have hearses
My friends house is full of cats but they are both allergic
Your house is inside my heart and your hearts where my house is

We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon

I'll leave the light on for you
I'll leave the light on for you
I'll leave a light on for you
I'll leave the light on for you

We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving
We'll be home soon
We're leaving, we're leaving, we're leaving, we're leaving
We'll be home soon

I'll leave the light on for you
I'll leave the light on for you
