

## Medication

Modest Mouse

This is the part of me that needs medication  
This is the part of me that believes in heaven  
....thinks outer space is all dead  
....wishes it was with it  
....'s trying to be funny  
....loves my parents  
...thinks that ants are cavemen  
....thinks all humans are ants  
....learns from sitcoms  
.....means nothing  
And I do-o-o-on't know  
Where I could go away and you could wish that I had stayed or j  
ust  
Stayed gone  
And I don't know  
And I don't know at all  
So, out of the context and into what you meant  
And u know your reasons  
You don't know who you are but you know who you wanna be  
I-i-i doooon't know  
So you go to the library to get yourself a book and you look an  
d you look  
But you didn't find anything to read  
And I do-on't know at all  
Left all my kinda parts rusting and peeling  
That guy was complaining as he looked at the ceiling  
My nose isn't that big it looks nothing like me  
We're all doctors trading sadness for numbness  
Grass looks much greener but it's green-painted cement  
Mayors ( ? ) and machines now they're cleaning the pavement  
You can't make dirt clean so we'll just lemon-scent it
