

## We Are Between

Modest Mouse

Hello, hello, hello, this is the worst part  
We are, we are, we are mirrors of our own faults  
Hello, hello, hello, this is the best part  
We are, we are, we are driven by our own thoughts

We are between, we are between, yeah we are  
Somewhere between dust and the stars  
Swung open then slam shut  
Yeah, but here we are  
We are between, we are between, here we are

Hello, hello, hello, this is the worst part  
We are, we are, we are made up of rocks and salt  
Hello, hello, hello, this is the best part  
We are, we are, we are made up of grasps at straw

We are between, we are between, yeah we are  
Somewhere between dust and the stars  
Swung open then slam shut  
Yeah, but here we are  
We are between, we are between, here we are

We are between, we are between, yeah we are  
Somewhere between dust and the stars  
Swung open then slam shut  
Yeah, but here we are  
We are between, we are between, here we are
