Modestep

You lift me up when I'm down
Yet I like that
Through the highs and the lows
On a one night
Which is growing through paints
Now I see that
I don't mind that
I'll be coming right back
You lift me up when I'm down
Yet I liked that
Through the rain and the storms
We survived that
Neither one is to blame
Now I see that
I don't mind that
I'll be coming right back

I'll be coming right back
I'll be coming right back
(I'll be coming right back)
(I'll be coming right back)
I'll be coming right back
I'll be coming right back
I don't mind that
I'll be coming right back
I'll be coming right back
I'll be coming right back
(I'll be coming right back)
(I'll be coming right back)
I'll be coming right back
I'll be coming right back
I don't mind that
I'll be coming right back

I'll be coming right back
I'll be coming right back
I'll be coming right back

You lift me up when I'm down
Yet I like that
Through the highs and the lows
On a one night
Which is growing through paints
Now I see that
I don't mind that
I'll be coming right back
You lift me up when I'm down
Yet I liked that
Through the rain and the storms
We survived that
Neither one is to blame
Now I see that
I don't mind that
I'll be coming right back

I'll be coming right back
I'll be coming right back

(I'll be coming right back)
(I'll be coming right back)
I'll be coming right back
I'll be coming right back
I don't mind that
I'll be coming right back
I'll be coming right back
I'll be coming right back
(I'll be coming right back)
(I'll be coming right back)
I'll be coming right back
I'll be coming right back
I don't mind that
I'll be coming right back

I'll be coming right back
I'll be coming right back
I'll be coming right back
