

Feel Alive

Modestep

Listen to the righteous only
With this, the wound grows slowly
They come to believe this nonsense
When people start making real sense

Because you, I see the signs
All the life with actions so blind
And you, see the signs
But we fear, they'll take our lives.

Do you feel alive
Now tell me do you feel alive
Do you feel alive

Do you feel alive
Now tell me do you feel alive
Do you feel alive

How come you feel so damn lonely
So much that you just don't show me
If I don't believe in something
Sit down before your mind starts ticking

Because you, I see the signs
All the life with actions so blind
And you, see the signs
But we fear, they'll take our lives.

Do you feel alive
Now tell me do you feel alive
Do you feel alive

Do you feel alive
Now tell me do you feel alive
Do you feel alive

All my life I feel trapped by these rules
I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped by this hatred in minds

All my life I feel trapped by these rules
I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped but I know that there's time

All my life I feel trapped by these rules
I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped by this hatred in minds

All my life I feel trapped by these rules
I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped but I know that there's time

All my life I feel trapped by these rules

I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped by this hatred in minds

All my life I feel trapped by these rules
I feel trapped by these rules by my side
All my life I feel trapped by these rules
I feel trapped but I know that theres time
