

Forever

Modestep

Hold on to your heart
It won't always be this way
Hold on to your heart
Don't you let it slip away

Hold on to your heart
It won't be like this forever

Hold on to your heart
It won't always be this way
Hold on to your heart
While we waiting out the rain

Hold on to your heart
It won't be like this forever

Be like this forever
Be like this forever

Be like this forever
Be like this forever

Hold on to your heart
It won't always be this way
Hold on to your heart
Don't you let it slip away

Hold on to your heart
It won't be like this forever

Hold on to your heart
It won't always be this way
Hold on to your heart
While we waiting out the rain

Hold on to your heart
It won't be like this forever

Be like this forever
Be like this forever

Be like this forever
Be like this forever
