Modestep

Hello Hi  
Modestep  
Auto-gas  
Levels, now  
Yo

Switch on the game, put you to shame  
You're hearing lullabies  
We shut it down, this is the sound  
Of your final life  
Switch on the game, put you to shame  
You've got no alibis  
Game over  
Like we told ya

Spartan kick to a pagan's jaw  
Knock down ginger, bang with the four  
King Leonidas, I give man the hand of God  
Bang by Spartan law  
Hear my Spartan roar!  
Hear my Spartan roar!  
Hear my Spartan roar!  
Hear my Spartan roar!

What what when I come through with my squad  
It's straight headtops, all headshots  
It's a lot when I touch down with my squad  
Couple shots from the 38 Glock  
You don't wanna take it on top with my squad  
Any mishaps, you're straight kidnapped  
It could never be your squad versus my squad  
Nah, not my squad

And I'm back with a mental beat  
Man said he buss gun, that's dead to me  
When I back out the strally, watch man get bammy  
You'll see more legs than a centipede  
Mentally  
It's a new day, bars dem a spray like an UZI, OK  
Come on and hate my crusade, true say  
Man think they're fast like Usain

From day, when I said I was a dumb person  
And when I roll in, it's a red alert warning  
I make duppy all over the atlas  
Somebody'll be dead by the time I'm done talking  
Me a win this when you see the killer bees swarming  
Yeah, the enemies are falling  
[?] night and morning  
They should've listened when the father was schooling

I'm the realest on grime  
The way that I project, you know I ain't lying  
Cause the riddim when I've done one ain't dying  
Cause I've got a great fire and I dominate [?] flying  
But I wanna raise higher, stand in my way  
Get blasted away, cause you know I spray fire  
You niggas got grey but I ain't hired  
Don't get up on the stage, you could never get higher
