

## Lost My Way

Modestep

(I think I've lost my way)  
(I think I've lost my way)  
(I think I've lost my way)  
(I think I've lost my way)

It all feels empty without you  
This feeling's ripping me apart  
I think I've lost my way  
It all feels so empty without you  
Without you  
Leaving me in the dark  
I think I've lost my way

(I think I've lost my way)  
(I think I've lost my way)  
I think I've lost my way  
I think I've lost my way  
(I think I've lost my way)  
I think I've lost my way

I think I've lost my way

I think I've lost my way

I think I've lost my way  
I think I've lost my way

I think I've lost my way

I think I've lost my way

I think I've lost my way

I think I've lost my way  
I think I've lost my way
