Make You Mine

Modestep

Your eyes tick me in like nothing else
Cause I never ever seen before
Your smile sends me to a different place
That I never ever been before

You turn me over to the dark side
Where theres no other sign
I cant wait to break these walls
Cause I know I got to make you mine

We need a million lifetimes
And now I got to make you mine
We did all the right signs
Now I got to make you mine

This life never had a reason
Now all seems to make sense
From time to time it seems like nothings beneath me
In twisted things I use the direction
Now I got to find way to break these walls
Cause I know I got to make you mine

We need a million lifetimes
And now I got to make you mine
We did all the right signs
Now I got to make you mine

Show me where to hide
Now Im gonna make you mine
Now Im gonna make you mine
Show me where to hide
Now Im gonna make you mine
Now Im gonna make you mine
Now Im gonna make you mine
Now Im gonna make you mine
Now Im gonna make you mine
Now Im gonna make you mine
