

Shutting Down

Modestep

It feels like we're parts
For no other purpose
You stepped in my world
Numbed all my hurting
Learned to know my worth
Taught me a thing or two
No matter how I hurt
I hold it down for you

This world will make my feelings turn real cold
I'm young at heart, but these days I feel old
I feel like shutting down
I'd never make it here when I'm all by myself

'Cause days just feel so long
When I'm all on my own
Sometimes I feel I should be shutting down
Never knew it's easy when there's someone else

I'm shutting down
I'm shutting down
I'm shutting down

With you the truth
Is always calling
The love we have
A thousand miles I'm falling
Taught me how to fight
Against this truth
No matter how I hurt
To hold it down for you

This world will make my feelings turn real cold
I'm young at heart, but these days I feel old
I feel like shutting down
I'd never make it here when I'm all by myself

'Cause days just feel so long
When I'm all on my own
Sometimes I feel I should be shutting down
Never knew it's easy when there's someone else

I'm shutting down
I'm shutting down
I'm shutting down
