

Close my eyes and hear your breath  
Please don't fail me now  
Close my eyes and wish for when  
I could hear you somewhere, somehow

If you could sing a song  
And life would pick me up  
The world would turn me round  
If you could sing a song  
And life would pick me up  
You'd be with me right now  
And you'll be singing

Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud

Close my eyes and hear your breath  
Please don't fail me now  
Close my eyes and wish for when  
I could hear you somewhere, somehow

If you could sing a song  
And life would pick me up  
The world would turn me round  
If you could sing a song  
And life would pick me up  
You'd be with me right now  
And you'll be singing

Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud  
Cause we can sing it loud
