

Slipping right through your fingers  
Behind your back, moving right between us  
Cause all you know is to take, take, take  
And just for taking's sake, you know  
The snake can't harm its charmer  
It's spitting venom right over your shoulder  
Cause it can't break-break what you made, you made  
It's all the same, the same

Let's make this understood  
I've heard that you've been up to no good  
Sneaking words around my neighborhood  
Let's make you understand  
I've heard that you've been acting bad  
But you said you ain't right up to that

You're just a snake  
Slipping round behind my back  
You're just a snake  
You let me down, and I'm done with that

It takes an open heart now to be fooled  
I bet you never thought you had it in you  
Cause all you know is to take, take, take  
And just for taking's sake, you know  
You see deceit is bad behaviour  
You shouldn't have one unless you tame it  
Just wrap this up, I'm well and truly done  
I bet this will wind up on you

Let's make this understood  
I've heard that you've been up to no good  
Sneaking words around my neighborhood  
Let's make you understand  
I've heard that you've been acting bad  
But you said you ain't right up to that

You're just a snake  
Slipping round behind my back  
You're just a snake  
You let me down, and I'm done with that

You're just a snake

You're just a snake  
Slipping round behind my back  
You're just a snake  
You let me down, and I'm done with that
