

This Could Be Us

Modestep

Me and you
You and I
Running together through our lives
You and I
Me and you
There ain't nothing we can't get through
I know we're going to be alright
As long as we focus on the light
Cause I know mistakes can find their place to our lives

This could be us
This could be everything we want
This could be us
This could be everything we want
I know we're going to be alright
As long as we focus on the light
This could be us
This could be us

(This could be everything we want)
(Everything we want, everything we want, everything we want...)
