

Without You

Modestep

Baby, I've been stuck a whole bunch
Maybe I swore too much
But I never saw my world without you
I never saw my world without you

Never saw my world without you
(Without you)
(Without you)
(Without you)
Never saw my world without you
(Without you)
(Without you)
Never saw my world without you
(Without you)
(Without you)

Maybe I put my trust in love
Maybe we've been through enough
But I never saw my world without you
I never saw my world without you

Never saw my world without you
(Without you)
(Without you)
(Without you)
Never saw my world without you
(Without you)
(Without you)
Never saw my world without you
(Without you)
(Without you)

Maybe things didn't go quite as planned
Maybe I didn't do all I can
But I never saw my world without you
I never saw my world without you
