

## Lie

## Modwheelmood

Guess we're back from scratch now  
I don't need a hit again  
Tell me what's the plan now  
Is it too much to comprehend?  
Could it be that easy  
To catch the plane?  
Catch the plane?

Would I lie to you?  
Could it be enough to understand  
That we're back to reality  
You know sometime, anytime  
Words can fuck it up more  
We'll fuck it up more

I think you lost your freedom  
To learn to play the game  
Well can I ask a question?  
Rather burn than fade away  
In the rainy season  
Would you do the same?  
Catch that train?

Would I lie to you?  
Could it be enough to understand  
That we're back to reality  
You know sometime, anytime  
Words can fuck it up more  
We'll fuck it up more

Back to reality  
You know sometime, anytime  
Words can fuck it up more
