

## Someone That I Can Forget

**Moe Bandy**

I come here tonight to discover a lover that I'd never known  
Someone to talk to and smile at and laugh with 'till I take her  
home

I come here to find me a stranger somebody that I never met  
Someone to love me then leave me alone but someone that I can f  
orget

You might say it's not unexpected neglected after being your ma  
n  
You'd left too many mem'ries to live with and I'm forgetting th  
e best way I can

I come here to find me a stranger  
Yes I need someone that I can forget
