

Head

moe.

Over and over, again and again Keep my head down, it is my friend

Other wonders can't explain As I fall into this life again

When it's over in the end Head's all empty, it is my friend

Withered under slanted rain As I fall into this love again

Chorus: Head I just can't get enough So I keep on playing And I
just can't get it up So I keep on praying I just can't get enough
So I keep on playing

Weather, thunder, ample rain I get my feet wet, I get my pain

Over and under fields of green Get my head wet, keep it clean

When it's over in the end Head's all empty, it is my friend

Other wonders can't explain As I fall into this life again
