

Opium

moe.

Give me some fire, and a piece of glass Hear that train, floatin'
n' past On feathered tracks, with helium wheels Got no coal, got
no steel

Opium, won't you smile on my brain Flowers and fog, you've got
me feeling no pain

Deja vu, all over again You gonna be my pal, my bestest friend
Hear that train, screamin' past Out of control and off the tracks

Opium, won't you smile on my brain Flowers and fog, you've got
me feeling no pain It's 8:00 AM not a quarter past 3 Flowers and
fog wont you rescue me

Fast asleep, quick to die Seen 'em go in the blink of an eye Long
white line, tied to the tracks Little white lie, no looking back

Opium, won't you smile on my brain Flowers and fog, you've got
me feeling no pain It's 8:00 AM not a quarter past 3 Flowers and
fog wont you rescue me Rescue me, cant you set me free Rescue
me, set me free

Opium, won't you smile on my brain Flowers and fog, you've got
me feeling no pain It's 8:00 AM not a quarter past 3 Flowers and
fog wont you rescue me

Opium, won't you smile on my brain Flowers and fog, you've got
me feeling no pain It's 8:00 AM not a quarter past 3, baby Flowers
and fog wont you rescue me
