

Where Does The Time Go

moe.

the times are the best
when moments have passed
one after another
you notice your thoughts
as they grow in the eveningtime
just like cleaning rime?

you hold them all close
so they can't run away
and leave you wondering
the times are the best
when moments have passed
one after another

[chorus]
here we are
home at last
where did it start
and where will it finish
home again
jig-id-y-jig
where does the time go?

livin in space is all fine and good
if your an astrunot
but life is a dream
that calculus could never predict
i lift up my feet every time i cross those railroad tracks
i am not supersticious
it just reminds me of you

here we are
home at last
where did it start
and where will it finish
home again
lidk-id-y-split
where does the time go?

there was a time that passed over us an airplanes shaddow
you could chase it i guess
it'll never be quite the same
i lift up my feet every time i cross those railroad tracks
i am not supersticious
it just reminds me of you

here we are
home at last
where did it start
and where will it finish
home again
jid-id-y-jig
where does the time go?

[instrumental]

here we are

home at last
where did it start
and where will it finish
home again
jig-id-y-jig

here we are
home at last
round up the ends
and high in the middle
home again
lidk-id-y-split
where does the time go?

where does the time go?
