

Black Widow

Mötley Crüe

In her eyes
You're the night's desire
You're the one on her lips
She drink your love
In the shadow of blood
It's a deadly, deadly kiss
She'll drink your love

All in her prey
You're just a man
In the web of delight

All you can do
Cause you've lost
Is close your eyes

In this theatre of pain
Your life
Love and hate's the same
To the black widow
To the black widow
To the black widow

I need a love
I need a love
I need another black widow
I need a love
I need a love
I need another black widow

Love and hate's the same
In this theatre of pain
Well among kings and queens
Love and hate's the same
To the black widow
