Rocketship

Mötley Crüe

Fly to the moon
We'll take my rocketship
It's outta sight
Oh so outta sight

Leave your head Check into this time Check your mind Let your sparkle shine

Pass the sun
Say goodbye to everyone
We'll fall in love
As we pass the sun

Hang from a star
Forget just who we are
It's outta sight
Oh so outta sight

From the moon To the stars To the sun
