# Radio

**Mohombi**

I got a secret and it's about you
Come a little closer, I'mma tell you what it is
You are my weakness, but you're my strength too
I'm moving mountains with the power of your kiss

When you put your arms around me I feel so fine
And how you make me happy keeps me alive
Every time I see you smiling, feeling inspired
Now I think it's time I tell you what my secret is (schhh)

Do you hear the song playing on the radio?
My ma, I wrote it for you
My ma, I wrote it for you
When you hear the song playing on the radio
You know I wrote it for you
My ma, it's all about you, yeah, yeah

Just like a notion, my love is so big
I miss you every second every day
It's no wonder why the way my heart thinks
Lyrics and melodies just pour out of me

See, whene 2ver you're around me I feel so fine
And how you make me happy keeps me alive
Every time I see you smiling, feeling inspired
Now let me tell you once again what my secret is (schhh)

Do you hear the song playing on the radio?
My ma, I wrote it for you
My ma, I wrote it for you
When you hear the song playing on the radio
You know I wrote it for you
My ma, it's all about you, yeah, yeah

You thought me love and respect, mama
How to never neglect a woman
So believe me, believe me, believe when I say
Mama, I appreciate you

Do you hear the song playing on the radio?
My ma, I wrote it for you
My ma, I wrote it for you
When you hear the song playing on the radio
You know I wrote it for you
My ma, it's all about you, yeah, yeah
