

All Forgiven

Moist

All forgiven turn the weight on me
And that's what I said
Turn the weight on
We laid this armour out
Our weapons primed so carefully
Laid out on the ground
And under darkening skies
I know you will not be denied
So I will not deny
All forgiven turn the weight on me
And that's what I said
Turn the weight on
I hear the lovers waking hear them laughing
Undercover now
Helpless their youth is fading toll it's taken
Gone forever now and we'll be free
