

Ammunition

Moist

Last night
Taking you underwater
First light
Taking you so far away

Last night
Taking you underwater
Purified
It's only love that matters

Left for dead
Now we are breathing fire
Ashes rise
We couldn't get much higher

You're my ammunition
And it takes a little time
And it takes a little time
So we pray

The jealous heart
Pulling in all directions
Ripped apart
To see it's my own reflection

Left for dead
Now we are breathing fire
Ashes rise
It's only love that matters

You're my ammunition
And it takes a little time
And it takes a little time
So we pray

And we pray for the light of the world
And we're drowning in everything
And I'm numb to the sound of your voice
And it hurts cause I'm bleeding

Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away
Taking us so far away

You're my ammunition
And it takes a little time
And it takes a little time
You're my ammunition
And it takes a little time

And it takes a little time
So we pray
So we pray
So we pray
So we pray
