

Comes The Sun

Moist

So we are alive
And I watch you fall right down before me
Each and every night
I just hope we make it home before we die
Every single night

Oh I can't fight I keep trying
I will walk through this
Day after day in a chemical haze
I will try

Comes the sun
Comes the sun
Take back the light till it's gone

With morning comes the lie
To ourselves we make believe
we will survive
Each and every night
Blow like ashes on the wind
we will survive
Each and every night

Oh I can't fight I will try
I will walk through this
Day after day in a chemical haze
I will try

Comes the sun
Comes the sun
Take back the light till it's gone
Until it's gone

Oh I can't fight I will try
I will walk through this
Day after day feels the same
I will walk through
Oh I can't fight will deny
I will walk through this
Day after day in a chemical haze
I will try

Comes the sun
Comes the sun
Take the dark from the light of the world

Comes the sun
Comes the sun
Take back the light till it's gone
Until it's gone
