Moist

I will rock you like a baby, lover Cradled in my arms I will keep you safe from danger Shelter you from harm

There will never be another lover Who treats you like I do
We can drift into forever
On a love that?s made for two

Don?t you ever say this love's not special Don?t you ever think it's not essential, baby

I was only thinking of you Hoping you were thinking of me Two hearts beating just like one Against the world, baby

I am always dreaming of you Hoping you are dreaming of me I could never live One day without your love

I will kiss you like an angel, baby Cradled in my wings I will take you up to heaven Show you precious things

If you promise that you love me If you promise that you care I will be here for you always And forever this I swear

Don?t you ever say this love's not special Don?t you ever think it's not essential, baby

I was only thinking of you Hoping you were thinking of me Two hearts beating just like one Against the world, baby

I am always dreaming of you Hoping you are dreaming of me I could never live one day Without your love

Though you say you want a love But you don?t think you believe it Just open up your heart And you know, you will receive it Oh baby, baby

Don?t you ever say this love's not special, no Don?t you ever think it's not essential, baby

I was only thinking of you Hoping you were thinking of me

Two hearts beating just like one Against the world, baby

I am only dreaming of you Hoping you are dreaming of me I could never live one day Without your love
