

Ressurrection

Moist

I've been drowned out by the rain
Still I'm wishing I could stay
But I'm sorry my old friend
I've got to leave you once again
And despite what I might say
I measure pleasure by the pain
Measure pleasure by the twisting
Of the metal in the vein
And it might be very hard
Can't be more than what we are
Can't be more 'til its over

Here comes the resurrection
Everybodys got to die from something
Nothing ever left to leave you when you go
I saw you strip my babies
Animal the way you cut them might be
Animal the way I cut you from below

So you goad me into spite
It's the cruelty that you'd like
It's the waiting for the one thing
That you never could define
Fill the longing just because
Emasculate the ones you love
Have to wait 'til its over

We are the less than mighty
Never was a way i thought it could be
Never quite enough to leave you when you go
I saw you strip my babies
Animal the way you cut them might be
Animal the way I cut you from below

I've been drowned out by the rain
Still I'm wishing I could stay
But I'm sorry my old friend
I'll have to leave you once again
And despite what I might say
I measure pleasure by the pain
Measure pleasure by the twisting
Of the metal in the vein
And it might be very hard
Can't be more than what we are
Can't be more 'til it's over

Here comes the resurrection
Everybody wants to die for something
Never thought I'd live to leave you when you go
I saw you strip my babies
Animal the way you cut them might be
Animal the way we caught you from below
And if anger is the ending
Of the thing that we've become
For the mother and the father
And the sister and the son
Through the shallow without wanting

Realization to mistake
Through the ugliness
The open
all the things we can't replace
I will control...
