

Tarantino (Bullet Kill Sex Love Thrill)

Moist

Flew like a fool to the sun
There you played with my wings till you're done
And you filled up my heart full of silver and gold
Left me for dead now it's gone

And if I could always love you
If I could have found one way to
If I could absolve your sins no
Nothing ever will
Bullet kill sex love thrill

And you carefully cut me parts
And this simple dissection your art
And you laughed as I burned in the heat of the sun
And this simple dissection is art

And if I could always love you
If I could have found one way to
If I could absolve your sins no
Nothing ever will
Bullet kill sex love thrill

All to be forgiven
I'm the one who keeps on coming back for more
And these lives we are living
I'm the one who keeps on coming back

And if I could always love you
If I could have found one way to
If I could absolve your sins no
Nothing ever will
Bullet kill sex love thrill
Bullet kill sex love thrill
Bullet kill sex love thrill
Bullet kill sex love thrill
Bullet kill sex love thrill
