

## All I Want

Mojave 3

There's a bird outside my window  
Singing me a song  
He plays for free all morning but the melody seems wrong  
Ain't it strange how love can bring ya down  
Do you ever think of me the way i think of you  
'cause hunny it's true

You're everything i want  
You're the only thing i need  
Just to hold you in my arms  
Hunny it's you, it's you  
You're all i ever want

Woke up with the perfect picture of you lying on your side  
Thought i heard you laughing but it might of been the sound  
Of the tv in the next room  
The maid out in the hall  
She brings me towels for free  
But they ain't what i need  
No hunny it's you

You're everything i want  
You're the only thing i need  
Just to hold you in my arms hunny it's you, it's you  
You're all i ever want

Hunny it's you  
Hunny it's you  
Yeh it's you  
Hunny it's you  
You're all i ever want
