All Your Tears

Mojave 3

Where's the magic that you wear
That keeps you safe
And keeps you feeling free
Whose arms have held you
That you don't know who you are
Anymore

Is that music that you hear
A distant sound from a distant year
Yeah something changed
And you lost your defence
And now it's gone

Something changed my friend
Yeah something CHANGED
All your tears have come at once
And now your LOST

What's the sense in moving ground
A hard sun is never hard to find
Just close your eyes
Turn your face to the wind
And you'll be fine

Where's the magic that you wear
That keeps you safe
And keeps you feelin' free
Whose arms have held you
That you don't know who you are
Anymore

Something changed my friend
Yeah something changed
All your tears have come at once
And now your lost ...
Yeah now your lost
