

# Control

Molly Burch

You know I love control want it all the time  
Hard for me to let go see the light  
But I want to love you right not like the last guy  
Treat you good treat you kind be there for you day and night

Lovings not easy I want to go back to the beginning  
And change the way I said it before  
All those times I didn't mean it can't believe I tricked myself  
I want you more than I want control

You know I can't stand still always moving  
You know I can't make decisions you're always choosing  
But I want to love you right not like the last guy  
Treat you good treat you kind be there for you day and night

Lovings not easy I want to go back to the beginning  
And change the way I said it before  
All those times I didn't mean it I can't believe I tricked myself  
I want you more than I want control

Sit back a minute I wanna be sure of it baby, uh huh  
Is this commitment? That'd be so mature of us baby, uh huh  
Back to somebody I know it well  
Reaching for something I know it well

Lovings not easy I want to go back to the beginning  
And change the way I said it before  
All those times I didn't mean it I can't believe I tricked myself  
I want you more than I want control  
I want you more, more...
