

Heartburn

Molly Burch

First time in a while got no man on my mind
I'd rather chase my dreams on a Saturday night
Think of all the reasons I would step outta line
But the distance between us has really been nice

Loving you is something that I used to do
I was free of this feeling until now, now

Heartburn season brings me back to you
Love won't always be the beacon of truth
I don't wanna waste my time
Wondering, wondering why
I've got better better things to do
And I don't wanna kill your night
Already ruined mine
I'll find my way back from you

Wish I could forget the moment we met
Wish it wasn't something I told all of my friends
Knew you were trouble in a second or less
Bad in a good way, as good as it gets

Loving you is something that I used to do
I was free of this feeling until now, now

Heartburn season brings me back to you
Love won't always be the beacon of truth
I don't wanna waste my time
Wondering, wondering why
I've got better better things to do
And I don't wanna kill your night
Already ruined mine
I'll find my way back from you
