

Tattoo

Molly Burch

You're the one I loved
The one I tried to take good care of
Everybody's muse
Like moths to flame attracted to you

And I even got the same
Tattoo as yours in the same place
It reminds me of your heart
And when we'd cosplay classic rock stars

I wanna bathe you in the water
Heal you like I got you
I promise forever behind you
I wanna tell you it's okay
Even though it's crazy
You wouldn't believe
I think you would hate it

You're the one who taught me empathy and tragedy
Well I guess we always knew
That you were bound to be gone too soon

I wanna bathe you in the water
Heal you like I got you
I promise forever behind you
I wanna tell you it's okay
Even though it's crazy
You wouldn't believe
I think you would hate it

If I could call you up
Wouldn't be nothing better
Wouldn't ask for much
Talk to me bout the weather
But it's impossible
And I'll just see you
When I'm dreaming
Like I've been doing for years
