

## TooK A Minute

Molly Burch

Took a minute but I found you Baby I'm sure  
Took a minute but I found you Baby I'm sure  
Took a minute but I found you Baby I'm sure  
Took a minute but I found you

Here we are you and I  
We've got everything we need and more  
Nothing to worry bout  
Took a minute but I found you baby I'm sure  
This is me trying to write you a love song this is my love song  
to ya baby  
This is me trying to write you a love song this is my love song  
to ya

Love song  
This is my  
Love song

There you were quiet eyes  
In the middle of the party the night we met  
Can't explain what I felt but it hit me like a brick  
I liked you the best  
This is me trying to write you a love song this is my love song  
to ya baby  
This is me trying to write you a love song this is my love song  
to ya

Love song  
This is my  
Love song

Took a minute but I found you  
Took a minute but I found you Baby  
Took a minute but I found you  
Took a minute but I found you Baby  
Took a minute but I found you  
Took a minute but I found you Baby  
Took a minute but I found you  
Took a minute but I found you
