

True Love

Molly Burch

Don't go out much
Afraid of seeing you around
And I can't have that, no
Brings back memories of your heart
Beating for me
And me alarmed
'Cause when it was nice it was so nice
When it was not, well, I still know it was

Real love
It was true love
I never knew love before you, my baby
Real love
It was true love
I never knew love before you, my baby

Please believe I try my best
To be honest with you
With all I had
The days went by, the nights grew long
I never found the right time
To tell you
That you were changing before my eyes
It made me sad to see it
And I missed the time

Real love
It was true love
I never knew love before you, my baby
Real love
It was true love
I never knew love before you, my baby
