

Try

Molly Burch

You know I, I would wait a million years for this
But don't make me wait, I promise you this
Could be something you like
I promise that this could be something you like

Sweetheart won't you call my name?
Wouldn't it be so nice if we felt the same?

I wish you would try
I wish you would try
I wish you would try
I wish you would try

The day I knew I wanted you was the day we met
And I said, "Well I'm your little baby, your little baby pet"
And you liked it like that
I promise that you liked it like that

Sweetheart won't you call my name?
Wouldn't it be so nice if we felt the same?

I wish you would try
I wish you would try
I wish you would try
I wish you would try
