

## Your Party

Molly Burch

I want to go to your party  
I want to have a good time  
Been awhile since I let my hair down  
Been awhile since I've seen myself

Helplessly lovesick for you  
And you like it just like that

Do you like to see me nervous?  
I promise it's not an act  
I grew up spending most of my time  
Alone dreaming of someone like you

Helplessly lovesick for you  
And you like it just like that
