

Deep Water

Molly Hatchet

Time to run and hide had come and gone
Showed more than your ass on the boulevard
Had to take the chances had to push it to the limit
Dug yourself a hole, now you're goin' down in it

The more I know the less I understand
You can take the night life or grab a helping hand

Oh oh... Survival of the fittest
Some won't come back alive
Oh oh... You might not make it

Swimming in deep water
The tide is closing in
Up to your neck in deep water

Gonna find that it's sink or swim

Time to run and hide had come and gone
You're to your limit down on the boulevard

Oh oh... Survival of the fittest
Some won't come back alive
Oh oh... You might not make it

Swimming in deep water
The tide is high and coming in
You're up to neck in deep water
Bet ya know it's sink or swim

Swimming in deep water
The tide is high and closing in
You're up to your neck in deep water
