

# Rain

Molly Johnson

I'm going 'round the bend like it'll never end, here I  
go again  
I'm going round and around; you know I'm losing ground  
Just keeping on and on

There's a light up ahead, it's burning bright in my  
head  
Time moves fast once you leave your bed  
(Like a streetlight on an empty road)

You know I can't see the shine in the silver lining no  
more  
It seems we aint got the time to make the rhythm rhyme  
Just keeping on and on  
Cause I got something here you'll never know you need  
No more tears are coming down from me

Cause that was just the rain, falling  
Big old drops hitting the ground yeah  
And everything has changed - oh darling  
Goodbye Montréal, I'll miss you after all - yeah

You know people come and people go  
And things change

You might like it today and then it all goes away  
It's all been rearranged  
So when you find yourself finally free  
To surrender to me  
You should know it just can't be

Cause that was just the rain, falling  
Big old drops hitting the ground  
And everything has changed - oh darling  
So good bye Montréal, I'll miss you after all

Funny how we don't see it come  
When suddenly everything is done  
-and all you can do, is listen to the rain
