

Tonight

Molly Johnson

I take my time
When things are weighin' on my mind
I'm gonna let the string unwind
Tonight

Watch your step
'Cause baby it aint over yet
You're gonna wanna call that bet
Tonight

Whenever
We're together
We dance like fireflies
Or maybe more like moth to flame

And I wonder
Are you under
The spell that's got me here
You are vinegar, I am oil
You're my tin and I'm your foil

Just a sigh
You didn't even have to try
And no one else can make me high
Tonight

Whenever
We're together
I don't hear symphonies
More like Mingus in the park

You're waitin'
I'm statin' the obvious refrain
This could be my last hurrah
They way you use that je ne sais quoi

So divine
I'm takin' all my own sweet time
And everything is oh so fine tonight
Everything is just so fine tonight
Baby gonna make you mine tonight
