

# Under Your Skin

Molly Sandén

Lips to neck  
Cheek to chest  
Let's just get never get out of this bed  
Face to face  
No regrets  
I don't wanna get out of your head

And it's never enough  
I want more, I want more  
'Cause I'm one to explore  
Everything about love,  
Love, I didn't know what for  
Can't stop

Until I'm under your skin  
Closer, deeper  
Until I'm under your skin,  
Come a little closer,  
Get a little deeper,  
'Cause I'm calling, calling, calling, calling for your love  
Now let's break down the walls  
Under is it all  
Until I'm under your skin,  
Come a little closer,  
Get a little deeper

We got space  
We got time  
Moving slow 'til our minds synchronize  
Levitate, stay high  
Hold my breath when our bodies collide

And it's never enough,  
I need more, I need more  
'Cause I'm one to explore,  
Everything about love,  
Love, I didn't know we fought,  
Can't stop

Until I'm under your skin  
Closer, deeper  
Until I'm under your skin,  
Come a little closer,  
Get a little deeper,  
'Cause I'm calling, calling, calling, calling for your love  
Now let's break down the walls  
Under is it all  
Until I'm under your skin,  
Come a little closer,  
Get a little deeper

Right under your skin, right under [x3]

(Until I'm under your skin)  
Every part of your body, my body wants body  
(Until I'm under your skin)  
Your body, my body, your body wants body

Until I'm under your skin,  
(Until I'm under your skin)  
Closer, deeper,  
Until I'm under your skin,  
(Until I'm under your skin)  
Come a little closer,  
Get a little deeper,  
'Cause I'm calling, calling, calling, calling for your love  
(Right under your skin, right under)  
'Cause I'm calling, calling, calling, calling for your love  
(Right under your skin, right under)

Right under your skin [x2]
