

# Friend And A Friend

Molly Tuttle

One two three four

I set out long ago  
Didn't give a thought to all the rogues and robbers on the road  
'Cause if I had a chance  
I know I had to take it

So for the longest time  
I spent a string of lonely nights in the back of a Ford Econoline  
You wake up feeling low  
And you get behind the wheel and go

Some days it's wide open, some days it's a dead end  
Some days I feel like I'm walking on the wild west end  
Got a big dream and a worn out D18  
All I need is a friend and a friend and another friend  
Friend and a friend and another friend

You never know what your gonna get  
When you roll into some new town, play for people that you never met  
Maybe they all know your name  
Or maybe they don't, maybe they don't care at all

So you do the best you can  
The empty coffee cups rolling back and forth inside the van  
But it all comes around  
When the lights go down

Some days it's wide open, some days it's a dead end  
Some days I feel like I'm walking on the wild west end  
Got a big dream and a worn out D18  
All I need is a friend and a friend and another friend  
Friend and a friend and another friend

This is the life, the life I've chosen  
Not even I can see the cards I'm holdin'  
And if tonight it doesn't go my way  
There's always tomorrow

Some days it's wide open, some days it's a dead end  
Some days I feel like I'm walking on the wild west end  
Got a big dream and a worn out D18  
All I need is a friend and a friend and another friend  
Friend and a friend and another friend
