

# Good Enough

Molly Tuttle

Couldn't sleep last night  
Too many demons floating 'round my head  
But with the morning light  
Your warmth pushed away my dread

There comes a time to say, "That's good enough"  
I'm finally learning how to let some doors stay shut  
It gets so hard but I'm not giving up  
Comes a time to say, "That's good enough"

I've gotta let this go  
This doubt inside me with every road I take  
There's things I'll never know  
But I'll go my own way

There comes a time to say, "That's good enough"  
I'm finally learning how to let some doors stay shut  
It gets so hard but I'm not giving up  
Comes a time to say, "That's good enough"

I'll take this day by day  
With a little laughter, a smile to get me through  
Maybe I'm not okay  
Not today, but I'm here with you

There comes a time to say, "That's good enough"  
I'm finally learning how to let some doors stay shut  
It gets so hard but I'm not giving up  
Comes a time to say, "That's good enough"

There comes a time to say, "That's good enough"  
I'm finally learning how to let some doors stay shut  
It gets so hard but I'm not giving up  
Comes a time to say, "That's good enough"  
There comes a time to say, "That's good enough"
