

# Goodbye Girl

Molly Tuttle

She's headin' down the mountain  
Footloose and fancy-free  
On her way to Boston where the city meets the sea  
With nothing but an ocean, she'd like to see the world  
Sail around the ocean, gotta be goodbye girl

Goodbye girl, got everything she needs  
Goodbye girl  
Goodbye girl, she knows she's gonna be  
Goodbye girl

Her mama used to tell her "Don't rush to settle down"  
"If you got the urge for goin', let it take you town to town"  
"The world is your oysters, so you better find those pearls  
"And I will always love you, farewell and goodbye, girl"

Goodbye girl, go chasin' down a dream  
Goodbye girl  
Goodbye girl, you're always gonna be  
My goodbye girl

You say you'd like to know her and she thinks you're alright  
But you'll be a hundred miles from here this time tomorrow night  
So if you'd like to join her, she'll take you for the world  
But you gotta love leavin' when you're with goodbye girl

Goodbye girl, nothing's gettin' between  
With a goodbye girl  
Goodbye girl, she's always gonna be  
Goodbye girl

Goodbye girl  
She's always gonna be goodbye girl
